

The Office of Health & Wellness strongly encourages you to

CONTACT YOUR INSURANCE COMPANY to confirm that your health insurance plan provides coverage for

- **Non-emergent medical care**
- **Specialists in the Greater Attleboro/Norton, MA area**
- **Diagnostic testing (through Sturdy Memorial Hospital)**
- **Lab services (through Sturdy Memorial Hospital)**
- **Prescription drugs**
- **Mental health services**
- **Inpatient and outpatient hospital services**
- **Emergency services**

If your health insurance plan does *not* provide the coverage above (e.g., Out-of-State Medicaid, Kaiser), you must participate in the Wheaton Health Insurance Plan or a plan with comparable coverage.

Know your insurance benefits!

- **Do you belong to an HMO?**
 - **Do you have a co-pay?**
 - **Do you have out-of-network coverage?**
- **Will you need a referral from your Primary Care Physician?**
- **Is there a deductible you must pay before your coverage begins?**

Norton Medical Center, Wheaton's designated health clinic, is a privately owned and operated neighborhood facility located on campus next to the Wheaton bookstore. Norton Medical Center providers are not contracted with all insurance companies (e.g., out-of-state BCBS and certain HMO plans, including Tufts) and charges incurred may not be covered until your *deductible has been met*.
