

2015 -16
Directory of
Local Healthcare
Resources

The Local Health Care Resources Directory is a convenient reference to use when considering options for on- and off-campus health care. The physicians and medical providers included in this directory have been chosen, first and foremost, because of their proximity to the Wheaton campus. Physicians affiliated with Sturdy Memorial Hospital and Morton Hospital, as well as clinics and services recommended by Wheaton students and staff have also been included.

Wheaton College and Student Health Services neither endorse nor are accountable for the care and services provided by the physicians and providers listed. Inclusion in this directory does not guarantee the quality of services rendered. We recommend prudent judgment when partnering with any health provider or organization.

The information contained in this directory is accurate at the time of printing.
