Wheaton College implemented a new curriculum beginning with students entering in Fall 2020. With minimal requirements, Wheaton's Compass curriculum gives students the freedom and flexibility to create their own path to success, with personalized advising and professional mentorship. The curriculum encourages students to connect academics to career interests and builds on Wheaton's core principles of intellectual curiosity, global citizenship, experiential learning, social justice, diversity and inclusion, and collaborative community. Taught by faculty teams, the only required general education course, the First-Year Experience, combines the deep discussions, reading and writing of a traditional first-year seminar with cross-discipline discovery, encouraging students to consider complex problems and questions through multiple lenses, right from the start. Other requirements for graduation include: a research project, internship, practicum, study abroad or other experiential opportunity; a declared major and their individual course or experience requirements; and a portfolio known as a Mentored Academic Pathway, developed in partnership with staff and faculty advisors.
